Tailor Your Service

Family picnic or fancy-schmancy wedding, we can handle it.

There will be at least one Smoke & Spice Catering Professional on hand for the duration of the dining portion of your event. All package prices include the "Family" table-setting, but can be customized to better suit your event or venue.

Buffet-Style Service:

This style of service involves the buffet table setup, including draping with ivory or black linen. If you are using coloured linen for your event and want the table to match, let us know.

Plated Service:

We'll prepare a plate for each individual, and serve them at their place. A team of servers and bussers appropriate to the number of guests will be on hand to take care of everyone.
